Dear Steve:

Enclosed please find the summary of results from a literature review conducted with respect to EBDC pesticides. I have attempted to keep this review relevant to the issue of EBDC residue levels on tobacco in light of the proposal by the Italian government.

A list of pesticide residue discussion points was circulated recently by Womble, Carlyle to members of the National Coordinating Counsel on Ingredients and Pesticides. A copy of these discussion points is appended to this letter.

If you have any questions on materials in this package, please feel free to contact me.

Very truly yours,

James M. Cholakis, Ph.D.

Enclosure
